

Transforming care for learning disability services

SHARE AND LEARN WEBINARS

Join us on the final Thursday of each month from 12.30pm to 1.30pm, where NHS England host Share and Learn webinars to improve the quality of care for people with learning disabilities and/or autism.

These enable Transforming Care Partnerships and anyone with an interest in improving learning disabilities services to join together and share knowledge and good practice.

Previous topics have included:

- The importance of self care and co-production
- CQC approach to registering services
- Personal budgets – expectations and support
- How to set up a Shared Lives scheme
- Stopping over-medication
- Transforming care for children and young people.

These sessions are interactive and informative, and always include time for you to ask our guest speakers questions.

If you have topics for future webinars, or would like to be added to our mailing list, please contact deborah.barnhurst@nhs.net
