

Kent, Surrey, Sussex Community of Practice local meetings

We are a Community of Practice working toward the eradication of health inequalities for people who have a learning disability. We aim to do this by supporting carers, care workers and all professionals to be person centred, provide the best quality care and support and improve equality and access to healthcare.

At the Kent, Surrey, Sussex Community of Practice (KSSCoP) conference in June, the theme of which was 'building our community', there was significant interest in holding local meetings to support the development of the community.

The following local meetings are open to all Community of Practice members wanting to be involved in shaping the future development of the KSSCoP. The agenda for the 2017 meetings will be to review the results of the consultation at the KSSCoP conference around local meetings, introduce the names of the KSSCoP Champions and the specific areas that they will be focussing on and to agree the format and agenda of future local meetings.
